

SERVCORP LAUNCHES THE THE SERVCORP SUPA APP

— POWER IN YOUR PALM —

Introducing the Servcorp Supa App, an intelligent digital platform designed exclusively for clients to simplify workspace access, meeting room bookings, and daily operations across the global network of premium locations.

The Servcorp Supa App enhances the client experience with QR Check-ins, Workspace Bookings, an AI-powered Concierge, and secure high-speed Wi-Fi access into one streamlined interface.

FASTER ARRIVAL WITH QR CHECK-IN

Clients can use instant QR check-in and check-out to move efficiently through global Servcorp locations.

The secure, contactless system reduces waiting time while maintaining Servcorp's premium service standards.

REAL-TIME WORKSPACE AND ROOM BOOKING

The app enables clients to book coworking desks, private offices, and meeting rooms in real time directly from their mobile device. Whether planning ahead or arranging space on short notice, reservations can be managed within seconds.

AI-POWERED CONCIERGE SUPPORT

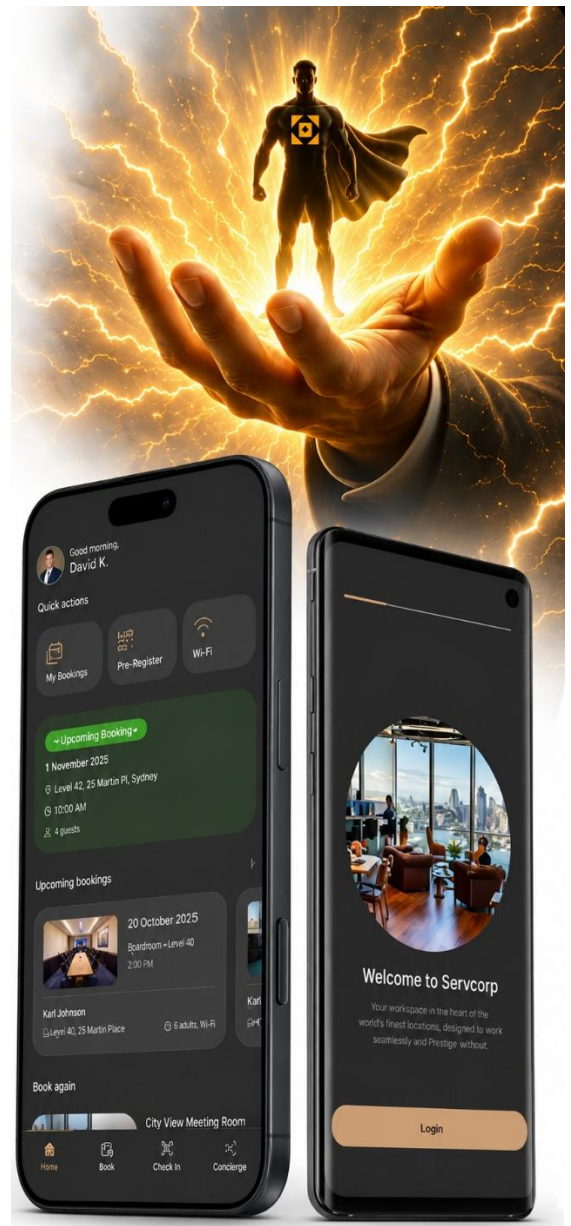

An integrated AI concierge delivers intelligent, on-demand support across Servcorp's global network. From booking assistance and smart location suggestions to Wi-Fi support and seamless handover to our team-help is always at your fingertips.

SECURE ENTERPRISE-GRADE WI-FI CONNECTIVITY

Through the Servcorp Supa App, clients can connect seamlessly to secure, enterprise-grade Wi-Fi across all locations, ensuring both speed and business-level security.

ALL-IN-ONE DASHBOARD

AI, bookings, check-ins, connectivity, and support are accessible from a single, intuitive dashboard. By integrating essential workplace services into one digital experience, the Servcorp Supa App supports our clients' productivity throughout the workday.
